Passage 1 (4 points)

Dolphins are really one of the wonders of creation .They live in small groups. In the group, they can defend one another. They are warm- blooded sea animals. Their different sizes are amazing. The largest dolphins are about 11 tons and the smallest ones are around 90 pounds. These clever animals can hear about 10 times better than humans. They also have very good vision, but their sense of smell is not so good. One more wonderful fact about them is that they have 100 teeth but they don't use them for eating. They get the fish and swallow them. There are still a lot more to learn about this wonderful animal.

47- Dolphins are different in sizes. a. True b. False

48- Humans can hear better than dolphins. a. True b. False

49- Dolphin's sense of smell is worse than their vision. a. True b. False

50- What is the best title for this passage?

a. Wonders of Sea Animals b. Dolphin and its size

c. Wonders of creation d. Dolphin a wonderful animal

51- Why do dolphins live in groups?

52- How big are the largest dolphins?

www-kanoon.ir

Passage 2 (4 points)

One day Isaac Newton was reading a book under an apple tree when an apple fell from the tree. Why did the apple fall? What makes things fall? Newton spent many years answering these questions by thinking and doing experiments. He finally made up the law of Gravity.

His law also explained how planets move around the sun or how moons move around the planets. The reason that things fall toward the ground is that the earth we live on is so heavy that it pulls and attracts things to itself by its great force.

53. He was doing an experiment under the tree.	a. True	b. False
54. He made the law of gravity after a few days.	a. True	b. False
55. His law explains how the earth pulls objects toward it.	a. True	b. False
56. Things fall to earth because the earth is heavier.	a. True	b. False

57- What made him think about that law?

V: Writing:
